Institutional Class (Symbol: BESMX)
Investor Class (Symbol: BESRX)

Prospectus

March 1, 2019

The U.S. Securities and Exchange Commission (“SEC”) has not approved or disapproved of these securities or determined if this Prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

Beginning on January 1, 2021, as permitted by regulations adopted by the SEC, paper copies of the Fund’s shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports. Instead, the reports will be made available on the Fund’s website at www.balterliquidalts.com, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Fund electronically by contacting your financial intermediary (such as a broker-dealer or bank) or, if you are a direct investor, by following the instructions included with paper Fund documents that have been mailed to you. You may also elect to receive all future reports in paper free of charge.

Summary Section

Investment Objective. The investment objective of the Balter European L/S Small Cap Fund (the “Fund”) is to seek to generate absolute returns by investing both long and short in European companies.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees <i>(fees paid directly from your investment)</i>	Institutional Class	Investor Class
Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price)	None	None
Maximum Deferred Sales Charge (Load)	None	None
Redemption Fee (as a percentage of amount redeemed within 60 days of purchase)	1.00%	1.00%
Annual Fund Operating Expenses <i>(expenses that you pay each year as a percentage of the value of your investment)</i>		
Management Fees	2.00%	2.00%
Distribution and Service (Rule 12b-1) Fees	0.00%	0.25%
Total Other Expenses	1.97%	2.02%
Remaining Other Expenses	0.48%	0.48%
Dividends on Securities Sold Short ⁽¹⁾	0.60%	0.60%
Interest Expense	0.89%	0.89%
Shareholder Servicing Fee	0.00%	0.05%
Acquired Funds Fees and Expenses ⁽²⁾	<u>0.03%</u>	<u>0.03%</u>
Total Annual Fund Operating Expenses	4.00%	4.30%
Fee Waiver/Expense Reimbursement	(0.24%)	(0.24%)
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement ⁽²⁾	<u>3.76%</u>	<u>4.06%</u>

(1) There are additional costs associated with the use of short sales. Short-sale dividends generally reduce the market value of the securities by the amount of the dividend declared; thus increasing the Fund's unrealized gain or reducing the Fund's unrealized loss on the securities sold short.

(2) This number represents the combined total fees and operating expenses of the underlying funds owned by the Fund and is not a direct expense incurred by the Fund or deducted from the Fund assets. Since this number does not represent a direct operating expense of the Fund, the operating expenses set forth in the Fund's financial highlights do not include this figure

(3) Pursuant to an operating expense limitation agreement between Balter Liquid Alternatives, LLC (the “Adviser”) and the Fund, the Adviser has agreed to waive its fees and/or absorb expenses of the Fund to ensure that Total Annual Fund Operating Expenses (excluding any front-end or contingent deferred sales loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary or non-recurring expenses, including, but not limited to, litigation) for the Fund do not exceed 2.24% and 2.54% of the Fund's average net assets, for Institutional Class and Investor Class shares, respectively, through February 28, 2020. This operating expense limitation agreement can be terminated only by, or with the consent of, the Board of Trustees. The Adviser is permitted to receive reimbursement from the Fund for fees it waived and Fund expenses it paid, subject to the limitation that: (1) the reimbursement for fees and expenses will be made only if payable within three years from the date the fees and expenses were initially waived or reimbursed; and (2) the reimbursement may not be made if it would cause the expense limitation in effect at the time of the waiver or currently in effect, whichever is lower, to be exceeded.

Example. This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The fee waiver/expense reimbursement arrangement discussed in the table above is reflected only through February 28, 2020. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	One Year	Three Years	Five Years	Ten Years
Institutional Class	\$378	\$1,196	\$2,031	\$4,191
Investor Class	\$408	\$1,282	\$2,169	\$4,440

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 194% of the average value of its portfolio.

Principal Investment Strategies. The Fund's objective is to generate absolute returns primarily by investing both long and short in small-cap European equities.

Under normal market conditions, the Fund pursues its objective by investing at least 80% of its net assets (including any borrowings for investment purposes) in equity securities of small-cap companies based in Europe. The Adviser considers issuers to be located in Europe if they are organized in Europe, have their principal place of business in the Europe, or their securities are traded principally in Europe. The Adviser currently defines small capitalization companies as those that at time of purchase have capitalizations below \$5.5 billion. The Fund's portfolio generally has between 30 and 80 equity positions in the Fund's long/short portfolio. The Fund may invest in listed and unlisted European equity securities, debt securities, options, warrants, convertibles and other derivative instruments. Derivative instruments may be exchanged traded or over-the-counter and will primarily be used for hedging and to manage short term volatility. The Fund may also retain amounts in cash or cash equivalents, pending investment, if this is considered appropriate to the investment objective.

The Fund is likely to have short positions at all times. The Fund may have a net long equity exposure of up to 150% of net asset value or a net short equity exposures of up to 50% of net asset value. The Fund also seeks to employ various hedging techniques with the aim of managing short term volatility.

The Fund's sub-adviser, S.W. Mitchell Capital LLP (the "Sub-Adviser"), believes that European stock markets are inefficient and that substantial value can be created by employing fundamentally driven company research. The Sub-Adviser visits potential investee companies extensively and the Fund will invest in what the Sub-Adviser believes to be the best quality growth companies where management has embraced the philosophy of maximizing shareholder value. The Fund also seeks opportunities amongst those companies which are restructuring their operations in order to realize shareholder value. The Fund aims to create value by selling short shares of companies where the Sub-Adviser believes the business outlook is deteriorating and valuations does not reflect the value perceived by the Sub-Adviser.

Principal Risks. Remember that in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund. The principal risks of investing in the Fund are:

- *Active Management Risk.* The Fund is actively managed with discretion and may underperform market indices or other mutual funds with similar investment objectives.
- *Counterparty Risk.* The Fund is subject to the risk that the issuers or counterparties with whom the Fund engages in derivative transactions will not fulfill their obligation to the Fund. Counterparty risk may arise because of the counterparty's financial condition (i.e., financial difficulties, bankruptcy, or insolvency), market activities and developments, or other reasons, whether foreseen or not. A counterparty's inability to fulfill its obligation may result in significant financial loss to the Fund.
- *Currency Risk.* Changes in foreign currency exchange rates will affect the value of what the Fund owns and the Fund's share price. Generally, when the U.S. dollar rises in value against a foreign currency, an investment in that country loses value because that currency is worth fewer U.S. dollars. Devaluation of a currency by a country's government or banking authority also will have a significant impact on the value of any investments denominated in that currency. Currency markets generally are not as regulated as securities markets.
- *Cyber Security Risk.* As the use of technology has become more prevalent in the course of business, the Fund has become more susceptible to operational, financial and information security risks resulting from cyber-attacks and/or technological malfunctions. Successful cyber-attacks and/or technological malfunctions affecting the Fund or its service providers can result in, among other things, financial losses to the Fund and its shareholders, the inability to process transactions with shareholders or other parties and the release of private shareholder information or confidential Fund information. While measures have been developed which are designed to reduce the risks associated with cyber security, there are inherent limitations in such measures and there is no guarantee those measures will be effective, particularly since the Fund does not directly control the cyber security measures of its service providers, financial intermediaries and companies in which it invests or with which it does business.
- *Derivatives Risk.* The Fund may invest in derivative instruments, including options, warrants and convertibles. In general, a derivative contract typically involves leverage, i.e., it provides long or short exposure to a reference instrument thereby providing the potential for gain or loss from a change in the level of the market price of a security, currency in a notional amount that exceeds the amount of cash or assets required to establish or maintain the derivative contract. In this way, the Fund can obtain market exposure to the reference instrument which is greater than the net assets used to establish the derivative position. The Fund's investments in derivatives may not perform as anticipated, may not be able to be closed out at a favorable time or price, or may increase the Fund's volatility. Increases and decreases in the value of the Fund's portfolio may be magnified when the Fund uses leverage. Futures and forward contract prices, and the prices of

the related contracts in which the Fund may trade, are highly volatile. Such prices are influenced by, among other things: changing supply and demand relationships; government trade, fiscal, monetary and exchange control programs and policies; national and international political and economic events; and changes in interest rates.

- *Equity Risk.* The Fund's investments in equity securities may decline in value due to factors affecting the issuing companies, their industries, or the economy and equity markets, generally. The values of equity securities may decline for a number of reasons which directly relate to the issuing company, such as management performance, financial leverage and reduced demand for the issuer's goods or services. They may also decline due to factors which affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. In addition, they may decline due to general market conditions which are not specifically related to a company or industry, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment, generally.
- *Fixed Income and Interest Rate Risk.* The value of the Fund's investments in fixed income securities and derivatives will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income securities and derivatives owned by the Fund. On the other hand, if rates fall, the value of fixed income securities and derivatives generally increases. Securities with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than securities with shorter durations.
- *Foreign Investment Risk.* Foreign investing involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards. A portion of the derivatives trades may take place on foreign markets. Neither existing SEC regulations nor regulations of any other U.S. governmental agency apply to transactions on foreign markets.
- *General Risk.* Domestic economic growth and market conditions, interest rate levels, and political events are among the factors affecting the securities markets in which the Fund invests. There is risk that these and other factors may adversely affect the Fund's performance. You could lose money by investing in the Fund.
- *Liquidity Risk.* Low trading volume, a lack of a market maker, or contractual or legal restrictions may limit or prevent the Fund from selling securities or closing derivative positions at desirable times or prices.
- *Management Risk.* Management risk is the risk that the investment process used by the Fund's portfolio manager could fail to achieve the Fund's investment goal and cause an investment in the Fund to lose value. The Fund is subject to the risk of poor stock selection. In other words, the Adviser or Sub-Adviser may not be successful in its strategy of taking long positions in stocks the manager believes to be undervalued and short positions in stocks the manager believes to be overvalued.
- *Portfolio Turnover Risk.* The Fund may buy and sell investments frequently. Such a strategy often involves higher transaction costs, including brokerage commissions, and may increase the amount of capital gains (in particular, short term gains) realized by the Fund. Shareholders may pay tax on such capital gains.
- *Short Position Risk.* The Fund will incur a loss as a result of a short position if the price of the short position instrument increases in value between the date of the short position sale and the date on which an offsetting position is purchased. Short positions may be considered speculative transactions and involve special risks, including greater reliance on the Sub-Adviser's ability to accurately anticipate the future value of a security or instrument. The Fund does sell stocks short. The Fund's losses are potentially unlimited in a short position transaction.
- *Small-Sized Companies Risk.* The Fund invests in the stocks of small capitalization companies. The earnings and prospects of these companies are more volatile than larger companies. Small sized companies may experience higher failure rates than do larger companies.

Performance. The bar chart illustrates the risks of investing in the Fund by showing how the Fund’s average annual returns through December 31, 2018 compare with those of a broad measure of market performance. Remember, the Fund’s past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. The Fund is the successor to the S.W. Mitchell Small Cap European Fund, L.P. (the “Predecessor Fund”), which transferred its assets to the Institutional Share Class of the Fund in connection with the Fund’s commencement of operations. The Sub-Adviser managed the Predecessor Fund, and the Fund’s investment policies, objective, guidelines and restrictions are, in all material respects, equivalent to those of the Predecessor Fund. The performance includes the performance of the Predecessor Fund prior to the commencement of the Fund’s operations. The Predecessor Fund’s performance has been adjusted to reflect the annual deduction of anticipated fees and expenses applicable to the Institutional Class Shares. The Predecessor Fund was not registered as a mutual fund under the Investment Company Act of 1940, as amended (the “1940 Act”), and therefore was not subject to certain investment restrictions, limitations and diversification requirements imposed by the 1940 Act and the Internal Revenue Code of 1986, as amended (the “Code”). If the Predecessor Fund had been registered under the 1940 Act, its performance may have been different. Please refer to the financial statements of the Predecessor Fund in the Fund’s Statement of Additional Information for additional information on the Predecessor Fund. Past performance, both before and after taxes, does not necessarily indicate how the Fund will perform in the future. Updated performance information will be available at no cost by calling the Fund toll-free at 1-844-322-8112 or on the Fund’s website www.balterliquidalts.com.

Institutional Class Shares¹
Calendar Year Returns as of December 31,

During the period shown in the bar chart, the best performance for a quarter was 15.01% (for the quarter ended June 30, 2009). The worst performance was -13.44% (for the quarter ended December 31, 2018).

Average Annual Total Returns For the Periods Ended December 31, 2018 ⁽¹⁾	One Year	Five Years	Ten Years	Life of Fund ⁽²⁾
Institutional Class Shares				
Return Before Taxes	-14.82%	1.49%	9.44%	7.71%
Return After Taxes on Distributions	-16.88%	0.55%	8.93%	7.27%
Return After Taxes and Sale or Redemption of Fund Shares	-8.77%	0.76%	7.55%	6.13%
Investor Class Shares⁽³⁾				
Return Before Taxes	-15.09%	N/A	N/A	0.22%
MSCI Europe Small Cap Index (reflects no deduction for fees, expenses or taxes)				
	-19.90%	1.96%	N/A	2.28%
Morningstar Long/Short Category Avg (reflects no deduction for fees, expenses or taxes)				
	-6.61%	1.17%	3.15%	1.01%

(1) This performance information reflects the performance of the Predecessor Fund as adjusted to reflect Institutional Class Shares and Investor Class Shares expenses reflected in the Fee Table.

(2) The Predecessor Fund commenced operations on October 31, 2007.

(3) Investor Class Shares commenced investment operations on December 30, 2015.

¹ The returns shown in the bar chart are for Institutional Class shares. The performance of Investor Class shares will differ due to differences in expenses and sales load charges

After tax returns depend on an investor's tax situation and may differ from those shown. After tax returns are calculated using the historical highest individual federal marginal income tax rates in effect and do not reflect the effect of state and local taxes. The after-tax returns shown may not be relevant to those investors who hold their shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts ("IRAs"). "Return After Taxes on Distributions" shows the effect of taxable distributions (dividends and capital gains distributions) but assumes that Fund shares are still held at the end of the period. After tax returns are shown for only Institutional Class Shares and after tax returns for Investor Class Shares will vary.

The MSCI Europe Small Cap Index captures small cap representation across the 15 Developed Markets (DM) countries in Europe. With 997 constituents, the index covers approximately 14% of the free float-adjusted market capitalization in the European equity universe.

The Morningstar Long/Short Equity Category Average reflects the average return for mutual funds that Morningstar considers to be utilizing a long/short equity approach. Long/short portfolios hold sizable stakes in both long and short positions. Some funds that fall into this category are market neutral--dividing their exposure equally between long and short positions in an attempt to earn a modest return that is not tied to the market's fortunes. Other portfolios that are not market neutral will shift their exposure to long and short positions depending upon their macro outlook or the opportunities they uncover through bottom-up research.

Investment Adviser. Balter Liquid Alternatives, LLC serves as the Fund's investment adviser (the "Adviser").

Investment Sub-Adviser. S.W. Mitchell Capital LLP serves as the Fund's investment sub-adviser (the "Sub-Adviser").

Portfolio Managers. The following serves as the Fund's portfolio managers:

Portfolio Manager	Primary Title	With the Fund Since:
The Adviser		
Brad R. Balter, CFA, CEO	Portfolio Manager	December 2015
Jay C. Warner, CFA, COO	Portfolio Manager	December 2015
Ben R. Deschaine, CAIA, CIO	Portfolio Manager	December 2015
The Sub-Adviser		
Jamie Carter	Portfolio Manager	December 2015

Purchase and Sale of Fund Shares. You may conduct transactions by mail (Balter European L/S Small Cap Fund, c/o Gemini Fund Services, LLC, 17645 Wright Street, Suite 200, Omaha, NE 68130), or by telephone at 1-844-322-8112. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial investment in each share class of the Fund is \$50,000 and \$5,000, for Institutional Class and Investor Class, respectively, with a minimum subsequent investment of \$500 for each Class. For Retirement Accounts and Automatic Investment Plans, the minimal initial investment in Investor Class shares is \$1,000, with a minimum subsequent investment of \$50. The Fund reserves the right to waive minimum initial investment or minimum subsequent investment requirements in its sole discretion.

Tax Information. The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

Investment Strategies, Related Risks and Disclosure of Portfolio Holdings

Investment Objective

The primary investment objective of the Fund is to seek to generate absolute returns by investing both long and short in European companies.

The Fund's investment objective is not fundamental and may be changed without the approval of shareholders. Shareholders will be given 60 days' notice of any such change.

Principal Investment Strategies

Under normal market conditions, the Fund pursues its objective by investing at least 80% of its net assets (including any borrowings for investment purposes) in equity securities of small-cap companies based in Europe. The Adviser considers issuers to be located in Europe if they are organized in Europe, have their principal place of business in the Europe, or their securities are traded principally in Europe. The Adviser currently defines small capitalization companies as those that at time of purchase have capitalizations below \$5.5 billion. The Fund's portfolio generally has between 30 and 80 equity positions in the Fund's long/short portfolio. The Fund may invest in listed and unlisted European equity securities, debt securities, options, warrants, convertibles and other derivative instruments. Derivative instruments may be exchanged traded or over-the-counter and will primarily be used for providing synthetic exposure to equity securities. Derivatives may also be used for hedging and to manage short term volatility. The Fund may also retain amounts in cash or cash equivalents, pending investment, if this is considered appropriate to the investment objective.

The Fund is classified as "diversified" for purposes of the Investment Company Act of 1940 (the "1940 Act"), which means that it is limited by the 1940 Act with regard to the portion of its assets that may be invested in the securities of a single issuer.

The Fund is likely to have short positions at all times. The Fund may have a net long equity exposure of up to 150% of net asset value or a net short equity exposures of up to 50% of net asset value. The Fund also seeks to employ various hedging techniques with the aim of managing short term volatility.

The Fund's sub-adviser, S.W. Mitchell Capital LLP (the "Sub-Adviser"), believes that European stock markets are inefficient and that substantial value can be created by employing fundamentally driven company research. The Sub-Adviser visits potential investee companies extensively and the Fund will invest in what the Sub-Adviser believes to be the best quality growth companies where management has embraced the philosophy of maximizing shareholder value. The Fund also seeks opportunities amongst those companies which are restructuring their operations in order to realize shareholder value. The Fund aims to create value by selling short shares of companies where the Sub-Adviser believes the business outlook is deteriorating and where valuations do not reflect the value perceived by the Sub-Adviser.

On the long side, the Sub-Adviser looks for 'best practice' companies. The Sub-Adviser typically likes companies that, at all levels of their business, can show superior performance against their competitors. The Sub-Adviser is attracted to focused and determined management teams with a substantial equity commitment to their business. The Sub-Adviser favors cash-generative businesses whose managements can demonstrate a clear idea about the use of their future cash streams. They generally like companies with balance sheet strength. Their preliminary findings, and the robustness of their assessment of future earnings and cash flow, are validated and monitored through meetings with competitors, suppliers and clients of the target investment. Finally, they examine the stock on a variety of valuation criteria, placing particular emphasis on those with a strong tie to cash flows, before making the ultimate decision on inclusion in the portfolio.

On the short side the Sub-Adviser looks for three types of situations: 1) stocks where their principal research has uncovered new insights into a company that may lead to a decline in stock price; 2) those companies whose long term business model is compromised; and 3) companies who use aggressive accounting to hide frailties in their business or where there may be fraudulent activity.

Position size within the portfolio is dictated by the degree of conviction and the liquidity of the stock. The process of stock selection is almost identical on both the long and short side of the portfolio.

Temporary Defensive Positions

The Fund may, from time to time, take temporary defensive positions that are inconsistent with the Fund's principal investment strategies in attempting to respond to adverse market, economic, political or other conditions. For example, during such periods, 100% of the Fund's assets may be invested in short-term, high-quality fixed income investments, cash or cash equivalents. In addition, during such periods, the Fund may invest its net assets in certain other derivatives, primarily forward contracts, interest rate swaps, total return swaps, and credit default swaps. Temporary defensive positions may be initiated by the Sub-Adviser when market conditions make pursuing its investment strategy used for the Fund inconsistent with the best interests of the Fund. When the Fund takes temporary defensive positions, it may not achieve its investment objective.

Principal Risks of Investing in the Fund

Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested and the amount of risk you are willing to take. **Remember that in addition to possibly not achieving your investment goals, you could lose money by investing in the Fund.** The value of your investment in the Fund will go up and down with the prices of the securities in which the Fund invests. The principal risks of investing in the Fund are:

Active Management Risk. The Fund is actively managed and its performance therefore will reflect in part the ability of the Sub-Adviser to select securities and to make investment decisions that are suited to achieving the Fund's investment objective. Due to its active management, the Fund could underperform other mutual funds with similar investment objectives.

Counterparty Risk. The Fund is subject to the risk that the issuers or counterparties with whom the Fund engages in derivative transactions will not fulfill their obligation to the Fund. Counterparty risk may arise because of the counterparty's financial condition (i.e., financial difficulties, bankruptcy, or insolvency), market activities and developments, or other reasons, whether foreseen or not. A counterparty's inability to fulfill its obligation may result in significant financial loss to the Fund. In addition, the Fund may invest in non-futures linked derivatives, which may be centrally cleared. Such central clearing may mitigate, but not eliminate, the counterparty risk associated with such investments.

Currency Risk. Changes in foreign currency exchange rates will affect the value of what the Fund owns and the Fund's share price. Generally, when the U.S. dollar rises in value against a foreign currency, an investment in that country loses value because that currency is worth fewer U.S. dollars. Devaluation of a currency by a country's government or banking authority also will have a significant impact on the value of any investments denominated in that currency. Currency markets generally are not as regulated as securities markets.

Cyber Security Risk. As the use of technology has become more prevalent in the course of business, the Fund has become more susceptible to operational, financial and information security risks resulting from cyber-attacks and/or technological malfunctions. Cyber-attacks include, among other things, the attempted theft, loss, misuse, improper release, corruption or destruction of, or unauthorized access to, confidential or highly restricted data relating to the Fund and its shareholders; and attempted compromises or failures to systems, networks, devices and applications relating to the operations of the Fund and its service providers. Cyber security breaches may result from unauthorized access to digital systems (e.g., through "hacking" or malicious software coding) or from outside attacks, such as denial-of-service attacks on websites (i.e., efforts to make network services unavailable to intended users).

Derivatives Risk. The Fund may invest in derivative instruments, including options, warrants and convertibles. In general, a derivative contract typically involves leverage, i.e., it provides long or short exposure to a reference instrument thereby providing the potential for gain or loss from a change in the level of the market price of a security, currency or commodity (or a basket or index) in a notional amount that exceeds the amount of cash or assets required to establish or maintain the derivative contract. In this way, the Fund can obtain market exposure to the reference instrument which is greater than the net assets used to establish the derivative position. The Fund's investments in derivatives may not perform as anticipated, may not be able to be closed out at a favorable time or price, or may increase the Fund's volatility. Increases and decreases in the value of the Fund's portfolio may be magnified when the Fund uses leverage. Derivatives are subject to the risk that changes in the value of a derivative may not correlate with the underlying asset, rate or index. Futures and forward contract prices, and the prices of the related contracts in which the Fund may trade, are highly volatile. Such prices are influenced by, among other things: changing supply and demand relationships; government trade, fiscal, monetary and exchange control programs and policies; national and international political and economic events; and changes in interest rates. The use of derivatives may not be successful, resulting in losses to the Fund, and the cost of such strategies may reduce the Fund's returns. Certain derivatives also expose the Fund to counterparty risk, which is described above. Certain derivatives are synthetic instruments that attempt to replicate the performance of certain reference assets. With regard to such derivatives, the Fund does not have a claim on the reference assets and is subject to increased counterparty risk. In addition, the Fund may use derivatives for non-hedging purposes, which increases the Fund's potential for loss. Certain of the Fund's transactions in futures, swaps, and other derivatives could also affect the amount, timing and character of distributions to shareholders which may result in the Fund realizing more short-term capital gain and ordinary income subject to tax at ordinary income tax rates than it would if it did not engage in such transactions, which may adversely affect the Fund's after-tax returns. Investing in derivatives may result in a form of leverage and subject the Fund to leverage risk, which is described below.

Equity Risk. The Fund's investments in equity securities may decline in value due to factors affecting the issuing companies, their industries, or the economy and equity markets, generally. The values of equity securities may decline for a number of reasons which directly relate to the issuing company, such as management performance, financial leverage and reduced demand for the issuer's goods or services. They may also decline due to factors which affect a particular industry or industries, such as labor shortages or increased production costs and competitive conditions within an industry. In addition, they may decline due to general market conditions which are not specifically related to a company or industry, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates or adverse investor sentiment, generally.

Fixed Income and Interest Rate Risk. The value of the Fund's investments in fixed income investments and derivatives will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed income investments and derivatives owned by the Fund. On the other hand, if rates fall, the value of fixed income investments and derivatives generally increases. Investments with longer durations tend to be more sensitive to changes in interest rates, usually making them more volatile than investments with shorter durations. Any U.S. Federal Reserve System revisions to its current policy of maintaining the federal rates at a low level and purchasing large quantities of securities issued or guaranteed by the U.S. government, its agencies or instrumentalities on the open market to support U.S. economic recovery will likely have a negative effect on the value of most fixed income investments and result in an increase in price volatility of fixed income investments.

Foreign Investment Risk. Foreign investing involves risks not typically associated with U.S. investments, including adverse fluctuations in foreign currency values, adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards. A portion of the derivatives trades may take place on foreign markets. Neither existing SEC regulations nor regulations of any other U.S. governmental agency apply to transactions on foreign markets. The securities of foreign issuers may be less liquid and more volatile than securities of comparable U.S. issuers. The costs associated with portfolio transactions are often higher in foreign countries than the United States. Additionally, investments in securities of foreign issuers, even those publicly traded in the United States, may involve risks which are in addition to those inherent in domestic investments. Foreign companies may not be subject to the same regulatory requirements of U.S. companies, and as a consequence, there may be less publicly available information about such companies. Also, foreign companies may not be subject to uniform accounting, auditing, and financial reporting standards and requirements comparable to those applicable to U.S. companies. Foreign governments and foreign economies, particularly in emerging markets, may be less stable than the U.S. government and the U.S. economy.

General Risk. Domestic and foreign economic growth and market conditions, interest rate levels, and political events are among the factors affecting the securities markets of the Fund's investments. There is risk that these and other factors may adversely affect the Fund's performance. You should consider your own investment goals, time horizon, and risk tolerance before investing in the Fund. An investment in the Fund may not be appropriate for all investors and is not intended to be a complete investment program. An investment in the Fund is not a deposit in the bank and is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency. You may lose money by investing in the Fund.

Liquidity Risk. Low trading volume, a lack of a market maker, or contractual or legal restrictions may limit or prevent the Fund from selling securities or closing derivative positions at desirable times or prices.

Management Risk. Management risk is the risk that the investment process used by the Fund's portfolio manager could fail to achieve the Fund's investment goal and cause an investment in the Fund to lose value.

Portfolio Turnover Risk. The Fund may buy and sell investments frequently. Such a strategy often involves higher transaction costs, including brokerage commissions, and may increase the amount of capital gains (in particular, short term gains) realized by the Fund. Shareholders may pay tax on such capital gains.

Short Position Risk. The Fund will incur a loss as a result of a short position if the price of the short position instrument increases in value between the date of the short position sale and the date on which an offsetting position is purchased. Short positions may be considered speculative transactions and involve special risks, including greater reliance on the Sub-Adviser's ability to accurately anticipate the future value of a security or instrument. The Fund does sell stocks short. The Fund's losses are potentially unlimited in a short position transaction.

Small-Sized Companies Risk. Because the Fund invests primarily in securities issued by small-cap companies, it is likely to be more volatile than a fund that focuses on securities issued by larger companies. The earnings and prospects of these companies are more volatile than larger companies. Small sized companies may experience higher failure rates than do larger companies. The trading volume of securities of small sized companies is normally less than that of larger companies and, therefore, may disproportionately affect their market price, tending to make them fall more in response to selling pressure than is the case with larger companies. Small sized companies may have limited markets, product lines or financial resources and may lack management experience. Small-sized companies often have less experienced management, narrower product lines, more limited financial resources, and less publicly available information than larger companies. In addition, smaller companies are typically more sensitive to changes in overall economic conditions and their securities may be difficult to trade.

Portfolio Holdings Information

A description of the Fund's policies and procedures with respect to the disclosure of the Fund's portfolio holdings is available in the Fund's SAI.

Management of the Fund

The Adviser

The Fund has entered into an Investment Advisory Agreement (“Advisory Agreement”) with Balter Liquid Alternatives, LLC, located at 125 High Street, Oliver Street Tower, Suite 802, Boston, MA 02110, under which the Adviser manages the Fund’s investments subject to the supervision of the Board of Trustees. Under the Advisory Agreement, the Fund compensates the Adviser for its investment advisory services at the annual rate of 2.00% of the Fund’s average daily net assets, payable on a monthly basis. The Adviser is registered as an investment adviser with the SEC.

Fund Expenses. The Fund is responsible for its own operating expenses. Pursuant to an operating expense limitation agreement between the Adviser and the Fund, the Adviser has agreed to reduce its management fees and/or pay expenses of the Fund to ensure that the total amount of Fund operating expenses (excluding any front-end or contingent deferred sales loads, brokerage fees and commissions, acquired fund fees and expenses, borrowing costs (such as interest and dividend expense on securities sold short), taxes and extraordinary or non-recurring expenses, including, but not limited to, litigation) do not exceed 2.24% and 2.54% of the Fund’s average net assets, for Institutional Class and Investor Class shares, respectively, through February 28, 2020, subject thereafter to annual re-approval of the agreement by the Board of Trustees. The Adviser is permitted to receive reimbursement from the Fund for fees it waived and Fund expenses it paid, subject to the limitation that: (1) the reimbursement for fees and expenses will be made only if payable within three years from the date the fees and expenses were initially waived or reimbursed; and (2) the reimbursement may not be made if it would cause the expense limitation in effect at the time of the waiver or currently in effect, whichever is lower, to be exceeded. The Fund must pay its current ordinary operating expenses before the Adviser is entitled to any reimbursement of management fees and/or expenses. This Operating Expense Limitation Agreement can be terminated only by, or with the consent, of the Board of Trustees. For the most recent fiscal period ended October 31, 2018, the Adviser received an advisory fee net of fee waivers and expense reimbursements equal to 1.76% of the Fund’s average daily net assets.

The Sub-Adviser

The Adviser, on behalf of the Fund, has entered into a sub-advisory agreement with S.W. Mitchell Capital LLP, and the Adviser compensates the Sub-Adviser out of the investment advisory fees it receives from the Fund. The Sub-Adviser makes investment decisions for the assets it has been allocated to manage, subject to the overall supervision of the Fund’s portfolio manager (see “Portfolio Managers” below). The Adviser oversees the Sub-Adviser for compliance with the Fund’s investment objective, policies, strategies and restrictions, and monitors the Sub-Adviser’s adherence to its investment style. The Board of Trustees supervises the Adviser and the Sub-Adviser, establishes policies that they must follow in their management activities, and oversees the hiring and termination of Sub-Advisers recommended by the Adviser. The SEC has granted an exemptive order with respect to the Adviser, which extends to other registered investment companies advised by the Adviser, including the Fund, that permits the Adviser, subject to certain conditions, to terminate existing Sub-Advisers or hire new Sub-Advisers for the Fund, to materially amend the terms of particular agreements with Sub-Advisers or to continue the employment of existing Sub-Advisers after events that would otherwise cause an automatic termination of a sub-advisory agreement. This arrangement has been approved by the Board of Trustees and the Fund’s initial shareholder. Consequently, under the exemptive order, the Adviser has the right to hire, terminate and replace Sub-Advisers when the Board of Trustees and the Adviser feel that a change would benefit the Fund. Within 90 days of retaining a new Sub-Adviser, shareholders of the Fund will receive notification of the change. The manager of managers structure enables the Fund to operate with greater efficiency and without incurring the expense and delays associated with obtaining shareholder approval of sub-advisory agreements. The structure does not permit investment advisory fees paid by the Fund to be increased or change the Adviser’s obligations under the Advisory Agreement, including the Adviser’s responsibility to monitor and oversee sub-advisory services furnished to the Fund, without shareholder approval. Furthermore, any sub-advisory agreements with affiliates of the Fund or the Adviser will require shareholder approval.

The Adviser has entered into a sub-advisory agreement with S.W. Mitchell Capital LLP. The Adviser compensates the Sub-Adviser out of its investment advisory fee it receives from the Fund. The Sub-Adviser makes investment decisions for the assets it has been allocated to manage. The Adviser oversees the Sub-Adviser for compliance with the Fund’s investment objective, policies, strategies and restrictions, and monitors the Sub-Adviser’s adherence to its investment style. The Board supervises the Adviser and the Sub-Adviser, establishes policies that they must follow in their management activities, and oversees the hiring, termination and replacement of the Sub-Adviser recommended by the Adviser.

S.W. Mitchell Capital LLP, Princes House, 38 Jermyn Street, London, UK SW1Y 6DN, serves as the Sub-Adviser to the Fund under a sub-advisory agreement with the Adviser on behalf of the Fund. S.W. Mitchell is registered as an investment adviser with the SEC. S.W. Mitchell Capital LLP was founded in 2005.

A discussion regarding the basis for the Board of Trustees' approval of the renewal of the Advisory Agreement and Sub-Advisory Agreement is available in the Fund's annual report to shareholders dated October 31, 2018.

Portfolio Managers

The following provides additional information about the Sub-Adviser and its portfolio managers who are responsible for the day-to-day management of the Fund's assets. The SAI provides additional information about the portfolio managers' compensation, other accounts managed by the portfolio managers and their ownership of investments in the Fund.

The Adviser

Brad R. Balter, CFA. Mr. Balter, a Co-Founder, Managing Partner, and the CEO of BCM and the Adviser, is a co-portfolio manager of the Fund. He has worked in the financial services industry since 1992. Prior to forming BCM, he was a Managing Director at Citigroup Global Markets.

Jay C. Warner, CFA. Mr. Warner, a Co-Founder, Partner and Chief Operating Officer of BCM and the Adviser, is a co-portfolio manager of the Fund. Prior to 2005, Mr. Warner was a Financial Analyst in middle market sales for Citigroup Global Markets and was a generalist at The Segalas Group, a long/short equity hedge fund.

Benjamin R. Deschaine, CAIA. Mr. Deschaine, a Partner and Chief Investment Officer of BCM and the Adviser, is a co-portfolio manager of the Fund. Prior to 2012, Mr. Deschaine was a Managing Director at Sabretooth Capital Management, LLC, a global multi-strategy hedge fund affiliated with Tiger Management and a Portfolio Manager and Senior Analyst at Federal Street Advisors.

The Sub-Adviser

Jamie Carter. Mr. Carter is a Partner of S.W. Mitchell Capital and the Investment Manager of two funds; the S.W. Mitchell Small Cap European Fund and the SWMC Small Cap European Fund. Mr. Carter joined S.W. Mitchell in early 2006 and launched the S.W. Mitchell Small Cap European Fund in November 2007 after a year and a half researching European markets, and finding himself gravitating towards the small cap space. In June 2011, Mr. Carter went on to launch the SWMC Small Cap European Fund, a UCITS fund which is generally run pari passu with the hedge fund, S.W. Mitchell Small Cap European Fund. Mr. Carter was made a Partner in April 2010. Prior to 2006, Mr. Carter worked at JO Hambro Investment Management (JOHIM). During his time at JOHIM he managed private client portfolios and researched U.S. companies, with a particular emphasis on technology, media and telecommunications.

Shareholder Information

Choosing a Share Class

The Trust has adopted a multiple class plan that allows the Fund to offer one or more classes of shares. The Fund has registered two classes of shares – Institutional Class shares and Investor Class shares. The different classes of shares represent investments in the same portfolio of securities, but the classes generally offered through different distribution channels and are subject to different expenses and may have different share prices as outlined below:

- Institutional Class shares are sold at NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund.
- Investor Class shares are sold without an initial sales charge, but are subject to a 0.25% Rule 12b-1 distribution and/or shareholder servicing fee and a 0.05% of shareholder servicing fee.

Each class of shares is subject to a redemption fee equal to 1.00% (as a percentage of amount redeemed within 60 days of purchase).

More About Institutional Class Shares

Institutional Class shares may be purchased without the imposition of any sales charges. The Fund offers Institutional Class shares primarily for direct investment by investors such as pension and profit-sharing plans, employee benefit trusts, endowments, foundations, corporations and high net worth individuals. Institutional Class shares may also be offered through certain financial intermediaries (including broker-dealers) and their agents in fee based and other programs. In these programs financial intermediaries have made arrangements with the Fund and are authorized to buy and sell shares of the Fund that charge their customers transaction or other distribution or service fees with respect to their customers' investments in the Fund. Institutional Class shares are sold at NAV without an initial sales charge, and are not subject to 12b-1 distribution fees. The minimum initial investment in Institutional Class shares of the Fund is \$50,000. The minimum subsequent investment in Institutional Class shares of the Fund is \$500.

More About Investor Class Shares

Investor Class shares of the Funds are sold at NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of a Fund. Investor Class shares include a 0.05% of Shareholder Servicing Fee. Investor Class shares pay up to 0.25% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Funds and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of an Investor Class shareholder's investment and may cost more than other types of sales charges. The minimum initial investment in Investor Class shares of the Fund is \$5,000. The minimum subsequent investment in Investor Class shares of the Fund is \$500. For Retirement Accounts and Automatic Investment Plans, the minimal initial investment in Investor Class shares is \$1,000, with a minimum subsequent investment of \$50.

Share Price

Shares of the Fund are sold at net asset value ("NAV"). The NAV of the Fund is determined at close of regular trading (normally 4:00 p.m. Eastern Time) on each day the New York Stock Exchange ("NYSE") is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund's securities are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at the mean between the current bid ask prices on such exchanges. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the

NASDAQ Official Closing Price. Securities that are not traded or dealt in any securities exchange (whether domestic or foreign) and for which over-the-counter market quotations are readily available generally shall be valued at the last sale price or, in the absence of a sale, at the mean between the current bid and ask price on such over-the-counter market. Debt securities not traded on an exchange may be valued at prices supplied by a pricing agent(s) based on broker or dealer supplied valuations or matrix pricing, a method of valuing securities by reference to the value of other securities with similar characteristics, such as rating, interest rate and maturity.

If market quotations are not readily available, securities will be valued at their fair market value as determined using the “fair value” procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different from the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value team composed of one or more officers from each of the (i) Trust, (ii) administrator, and (iii) Advisor and/or sub-Advisor. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund’s securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in underlying ETFs which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the underlying ETFs do not price their shares, the value of some of the Fund’s portfolio securities may change on days when you may not be able to buy or sell Fund shares.

In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund’s portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Advisor may need to price the security using the Fund’s fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund’s portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund’s NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund’s assets that are invested in one or more open-end management investment companies registered under the 1940 Act, the Fund’s net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

How to Purchase Shares

The Fund offers two classes of shares so that you can choose the class that best suits your investment needs: Institutional Class and Investor Class shares. The main differences between the classes are the ongoing fees. In choosing which class of shares to purchase, you should consider which will be most beneficial to you given your investment goals, the amount of your purchase and the length of time you expect to hold the shares. Each class of shares in the Fund represents an interest in the same portfolio of investments in the Fund. Not all share classes may be available for purchase in all states.

Purchase by Mail. To purchase the Fund’s shares, simply complete and sign the Account Application and mail it, along with a check made payable to “Balter European L/S Small Cap Fund” to:

via Regular mail:

Balter European L/S Small Cap Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, NE 68154

via Overnight mail:

Balter European L/S Small Cap Fund
c/o Gemini Fund Services, LLC
17645 Wright Street, Suite 200
Omaha, NE 68130

Purchase through Brokers. You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the Fund's behalf.

Purchase by Wire. If you wish to wire money to make an investment in the Fund, please call the Fund at 1-844-322-8112 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan. You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$50 on specified days of each month into your established Fund account. Please contact the Fund at 1-844-322-8112 for more information about the Fund's Automatic Investment Plan. Minimum initial investment requirements may be waived for Automatic Investment Plan investors, at the Fund's discretion.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to **"Balter European L/S Small Cap Fund."** The Fund will not accept payment in cash, including cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

Anti-Money Laundering Program. The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

In order to ensure compliance with these laws, the Account Application asks for, among other things, the following information for all "customers" seeking to open an "account" (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- full name;
- date of birth (individuals only);
- Social Security or taxpayer identification number; and
- permanent street address (P.O. Box only is not acceptable).

Accounts opened by entities, such as corporations, limited liability companies, partnerships or trusts, will require additional documentation.

Please note that if any information listed above is missing, your Account Application will be returned and your account will not be opened. In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application as part of the Program. The Fund reserves the right to request additional clarifying information and may close your account if such clarifying information is not received by the Fund within a reasonable time of the request or if the Fund cannot form a reasonable belief as to the true identity of a customer. If you require additional assistance when completing your Account Application, please contact the Transfer Agent at 1-844-322-8112.

How to Redeem Shares

The Fund typically expects that it will take up to 7 days following the receipt of your redemption request to pay out redemptions from cash, cash equivalents, proceeds from the sale of the Fund shares, any line of credit, and then from the sale of portfolio securities. These redemption payment methods will be used in regular and stressed market conditions.

You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular mail:

Balter European L/S Small Cap Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, NE 68154

via Overnight mail:

Balter European L/S Small Cap Fund
c/o Gemini Fund Services, LLC
17645 Wright Street, Suite 200
Omaha, NE 68130

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-844-322-8112. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of your telephone instructions. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan (for Investor Class shares only): If your individual accounts, IRA or other qualified plan account have a current account value of at least \$5,000, you may participate in the Fund's Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$250 on specified days of each month into your established bank account. Please contact the Fund at 1-844-322-8112 for more information about the Fund's Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders made by a shareholder during any 90-day period by making payment in whole or in part in portfolio securities ("redemption in kind") if the amount of such a request is large enough to affect operations (if the request is greater than the lesser of \$250,000 or 1% of the Fund's net assets at the beginning of the 90-day period). The securities will be chosen by the Fund and valued using the same procedures as used in calculating the Fund's NAV. A shareholder may incur transaction expenses in converting these securities to cash and securities redeemed in-kind remain at the risk of the market until they are sold and the shareholder will bear market risk until the securities are converted to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of a request in "good order." If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in “good order.” To be in good order, the following conditions must be satisfied:

- The request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- The request must identify your account number;
- The request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- If you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance falls below \$1,000 for Institutional and Investor Class accounts, the Fund may notify you that, unless the account is brought up to the minimum investment amount within 30 days of the notice, your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below required minimum due to a decline in NAV.

Redemption Fee

The Fund will deduct a 1.00% redemption fee on the redemption amount if you sell your shares less than 60 days after purchase or when shares held less than 60 days are redeemed for failure to maintain the Fund’s balance minimum. See Low Balances for further information on account closure policy. Shares held longest will be treated as being redeemed first and shares held shortest as being redeemed last. Shares held for 60 days or more are not subject to the 1% fee.

Redemption fees are paid to the Fund directly and are designed to offset costs associated with fluctuations in Fund asset levels and cash flow caused by short-term shareholder trading.

Waivers of Redemption Fees: The Fund has elected not to impose the redemption fee for:

- Redemptions and exchanges of Fund shares acquired through the reinvestment of dividends and distributions;
- Certain types of redemptions and exchanges of Fund shares owned through participant-directed retirement plans;
- Redemptions or exchanges in discretionary asset allocation, fee based or wrap programs (“wrap programs”) that are initiated by the sponsor/financial advisor as part of a periodic rebalancing;

- Redemptions or exchanges in a fee based or wrap program that are made as a result of a full withdrawal from the wrap program or as part of a systematic withdrawal plan;
- Involuntary redemptions, such as those resulting from a shareholder's failure to maintain a minimum investment in the Fund, or to pay shareholder fees; or
- Redemptions or exchanges due to the death or disability of a shareholder, pursuant to a qualified domestic relations order or divorce decree, or similar situations where the Fund, in its discretion, believes it is appropriate in the circumstances.

The Fund reserves the right to modify or eliminate the redemption fees or waivers at any time and will give shareholders 30 days' prior written notice of any material changes, unless otherwise provided by law. The redemption fee policy may be modified or amended in the future to reflect, among other factors, regulatory requirements mandated by the SEC.

Tools to Combat Frequent Transactions

The Fund discourages and does not accommodate market timing. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund currently uses several methods to reduce the risk of market timing. These methods include:

- Committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy,"
- Rejecting or limiting specific purchase requests, and
- Charging a 1.00% redemption charge if shares are held less than 60 days.

Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

The redemption fee, which is uniformly imposed, is intended to discourage short-term trading and is paid to the Fund to help offset any cost associated with such short-term trading. The Fund will monitor the assessment of redemption fees against your account. Based on the frequency of redemption fees assessed against your account, the Adviser or Transfer Agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to (i) reject or limit the amount, number, frequency or method for requesting future purchases into the Fund and/or (ii) reject or limit the amount, number, frequency or method for requesting future exchanges or redemptions out of the Fund.

The Fund reserves the right to reject or restrict purchase or exchange requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase or exchange orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions, assessing the Fund's redemption fee and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. Brokers maintaining omnibus accounts with the Fund have agreed to provide shareholder transaction information to the

extent known to the broker to the Fund upon request. If the Fund or its transfer agent or shareholder servicing agent suspects there is market timing activity in the account, the Fund will seek full cooperation from the service provider maintaining the account to identify the underlying participant. At the request of the Adviser, the service providers may take immediate action to stop any further short-term trading by such participants.

Householding. To reduce expenses, the Fund mails only one copy of the Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-844-322-8112 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

Shares of one Class of the Fund will not be exchangeable for shares of another Class.

Distribution of Fund Shares

The Distributor

Northern Lights Distributors, LLC (the “Distributor”) is located at 17645 Wright Street, Suite 200, Omaha, NE 68130, and serves as distributor and principal underwriter to the Fund. The Distributor is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. (“FINRA”). Shares of the Fund are offered on a continuous basis.

Distribution and Shareholder Servicing (12b-1) Plan

The Fund has adopted a Distribution and Shareholder Servicing Plan pursuant to Rule 12b-1 (the “12b-1 Plan”) under the 1940 Act applicable to the Investor Class shares. Under the 12b-1 Plans, the Fund is authorized to pay the Fund’s distributor, or such other entities as approved by the Board of Trustees, a fee for the promotion and distribution of the Fund and the provision of personal services to shareholders. The maximum amount of the fee authorized is 0.25% of the Fund’s average daily net assets annually for Investor Class shares. The distributor may pay any or all amounts received under the 12b-1 Plan to other persons, including the Adviser, for any distribution or service activity. Because these fees are paid out of the Fund’s assets on an on-going basis, over time these fees will increase the cost of your investment in the Fund and may cost you more than paying other types of sales charges.

In addition to the fees paid under the 12b-1 Plan, the Fund may pay service fees to intermediaries such as banks, broker-dealers, financial advisors or other financial institutions, including the Adviser and affiliates of the Adviser, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus, other group accounts or accounts traded through registered securities clearing agents.

Shareholder Servicing Plan

The Trust has also adopted a Shareholder Service Plan under which the Fund may pay a fee of up to 0.05% of the average daily net assets of the Fund’s Investor Class shares for shareholder services provided to the Fund by financial institutions.

Because the Fund pays shareholder service fees on an ongoing basis, your investment cost over time may be higher than paying other types of sales charges.

Additional Compensation to Financial Intermediaries

The distributor, its affiliates and the Adviser, out of its own resources, and without additional cost to the Fund or its shareholders, may provide additional cash payments or non-cash compensation to intermediaries who sell shares of the Fund. Such payments and compensation are in addition to service fees paid by the Fund, if any. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. Cash compensation may also be paid to intermediaries for inclusion of the Fund on a sales list, including a preferred or select sales list, in other sales programs or as an expense reimbursement in cases where the intermediary provides shareholder services to the Fund’s shareholders. The Adviser may also pay cash compensation in the form of finder’s fees that vary depending on the dollar amount of the shares sold.

Distributions and Taxes

Tax Status, Dividends and Distributions

Any sale or exchange of a Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

Dividends from net investment income are generally made at least annually. Capital gain distributions from net profits from the sale of investments are generally made at least annually. Both distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal income tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. This summary is general in nature and should not be regarded as an exhaustive presentation of all possible tax ramifications. The tax considerations relevant to a specific shareholder depend upon its specific circumstances, and this summary does not attempt to discuss all potential tax considerations that could be relevant to a prospective shareholder with respect to the Fund or its investments. This general summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), the Federal Income Tax Regulations promulgated thereunder, and administrative and judicial interpretations thereof as of the date hereof, all of which are subject to change (potentially on a retroactive basis). You should consult your own independent tax advisors to determine the tax consequences of owning the Fund's shares.

Other Reporting and Withholding Requirements. Payments to a shareholder that is either a foreign financial institution ("FFI") or a non-financial foreign entity ("NFFE") within the meaning of the Foreign Account Tax Compliance Act ("FATCA") may be subject to a 30% withholding tax on: (a) income and dividends paid by a Fund and (b) certain capital gain distributions and the gross proceeds arising from the sale of Fund shares paid by the Fund after December 31, 2018. FATCA withholding tax generally can be avoided: (a) by an FFI, subject to any applicable intergovernmental agreement or other exemption, if it either enters into a valid agreement with the IRS or otherwise complies with the specific requirements and provisions of an applicable intergovernmental agreement, in each case to, among other requirements, to collect and report required information about certain direct and indirect ownership of foreign financial accounts held by U.S. persons with the FFI and (b) by an NFFE, if it: (i) certifies that it has no substantial U.S. persons as owners or (ii) if it does have such owners, reports information relating to them. A Fund may disclose the information that it receives from its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA. Withholding also may be required if a foreign entity that is a shareholder of a Fund fails to provide the Fund with appropriate certifications or other documentation concerning its status under FATCA.

Financial Highlights

The financial highlights tables are intended to help you understand the Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the table represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information has been derived from the financial statements audited by Tait, Weller & Baker LLP, whose report, along with the Fund's financial statements, are included in the Fund's October 31, 2018 annual report, which is available at no charge upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Period

Institutional Class

	For the Year Ended <u>October 31, 2018</u>	For the Year Ended <u>October 31, 2017</u>	For the Period Ended <u>October 31, 2016</u> ⁽¹⁾
Net asset value, beginning of period	\$ 11.67	\$ 9.27	\$ 10.00

FOR MORE INFORMATION

You can find more information about the Fund in the following documents:

Statement of Additional Information

The SAI provides additional details about the investments and techniques of the Fund and certain other additional information. A current SAI is on file with the SEC and is incorporated into this Prospectus by reference. This means that the SAI is legally considered a part of this Prospectus even though it is not physically within this Prospectus.

Annual and Semi-Annual Reports

Additional information about the Fund's investments will also be available in the Fund's Annual and Semi-Annual Reports to Shareholders. In the Fund's Annual Report, you will find a discussion of the market conditions and investment strategies that significantly affected the Fund's performance during its last fiscal year.

To obtain a free copy of the SAI and, when issued, the Annual and Semi-Annual Reports to Shareholders, or make general inquiries about the Fund by calling the Fund (toll-free) at 1-844-322-8112, or by writing to:
